

# Photoshop LightRoom

1/4

## **Course Description**

O novo software Adobe® Photoshop® Lightroom™ é a ferramenta de edição e tratamento de imagem essencial para fotógrafos profissionais, fornecendo uma aplicação de gestão fácil e ajustável, e apresentando um grande volume de fotografias digitais para que passe menos tempo na frente do computador e mais tempo atrás das lentes. Durante o curso vai conhecer e aprofundar as potencialidades desta aplicação.

## **Duração – 2 dias**

Conteúdo Programático

### **1. Getting Started**

What is Lightroom?

Photographic workflow puzzle

### **2. Setting the Stage**

Essential Preferences

Understanding the Interface

Customizing the interface

Hardware considerations

Interlude – Creative tip

### **3. Importing Images**

Importing from a CF card

Importing from a folder

Importing via drag/drop

Auto import

# Photoshop LightRoom

## **4. Library Module Overview**

Overview, Navigator, Zoom preferences  
Grid view options, Loupe view options  
Toolbar icons and view modes  
Toolbar features

## **5. Library Module Keywords**

Keyword overview  
Keyword modification  
Keyword sets  
Keyword stamping  
Interlude – Creative tip

## **6. Library Module Organization**

Rating, Rating shortcut  
Labels, Filter, Deleting  
Stacking, Renaming, Collections  
Finding

## **7. Library Module Metadata**

Metadata  
Metadata modification

## **8. Library Module Processing**

Quick develop  
Editing multiple images

## **9. Library Module Exporting and Editing**

Exporting images

# Photoshop LightRoom

3/4

Editing in Photoshop

## **10. Develop Module Overview**

Develop Module essentials  
Interface and shortcuts  
Presets, View options, Rating  
Comparing, Histogram  
Interlude – Creative tip

## **11. Develop Module Color and Tone**

Basic adjustments, Exposure  
Color, Tone, Tone curve  
Hue/saturation/luminosity  
Split toning  
Black and white

## **12. Develop Module Details**

Camera calibration  
Details, Lens correction  
Cropping, Undo, Red-eye removal  
Spot healing architecture  
Spot healing people

## **13. Develop Module Creativity**

Fill light, Color and tone  
Graphic black and white  
Presets and more  
Interlude – Creative tip

## **14. Slideshow Module**

Quick slideshows
